INTRODUCTION

PassSecurium™ is a part of the **SWISS SECURIUM®** Platform, which is a special platform for secure communication, storage and exchange of information and documents. Reliable data centre ensures maximum security.

Since foundation we have been successfully protecting communication. The highest corporate communication security is our main goal.

100% are made and protected in Switzerland.

1. FUNCTIONALITY

With **PassSecurium™** you can access your password storage from your mobile devices anytime and anywhere as well as manage your passwords. Besides standard functions (view / delete / manage/ create passwords) **PassSecurium™** offers an integrated password generator with selectable complexity. This App can be used for mobile devices of all sizes.

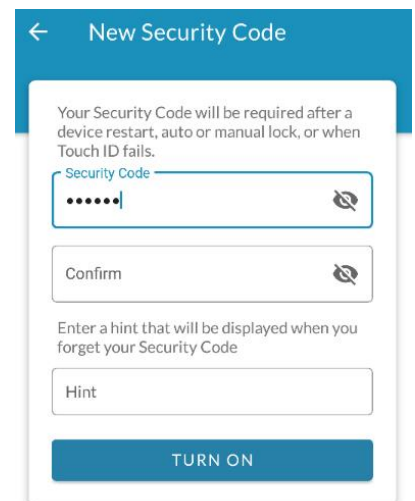

Key functions:

- View, delete and create passwords
- Integrated password generator with selectable complexity
- Easy copy to clipboard
- Automatic lock when idle
- Support for offline mode

2. SET SECURITY CODE

Security code is an extra password for **PassSecurium™** app on your device.

1. Enter Security code.
2. Confirm Security code.
3. Enter a hint for the Security code.
4. Tap <Turn on> to enter **PassSecurium™**.

3. ACCOUNT MANAGEMENT

In the **PassSecurium™** app you can add accounts, create new free accounts and delete/edit existing accounts:

- Tap on the menu icon in the upper left corner .
- Tap on the combo box icon  to open account list and scroll it till the end. You'll find account management options there.

3.1 Add existing account

1. Tap <Add account> option.
2. Enter product ID (if necessary).
3. Enter Username.
4. Enter Password.
5. Tap <Sign in>

If you are an **SWISS SECURIUM®** platform user, you should only add new account to your **SwissSecurium™** app and that account will synchronize across the other platform applications including **PassSecurium™**.

3.2 Register Free account

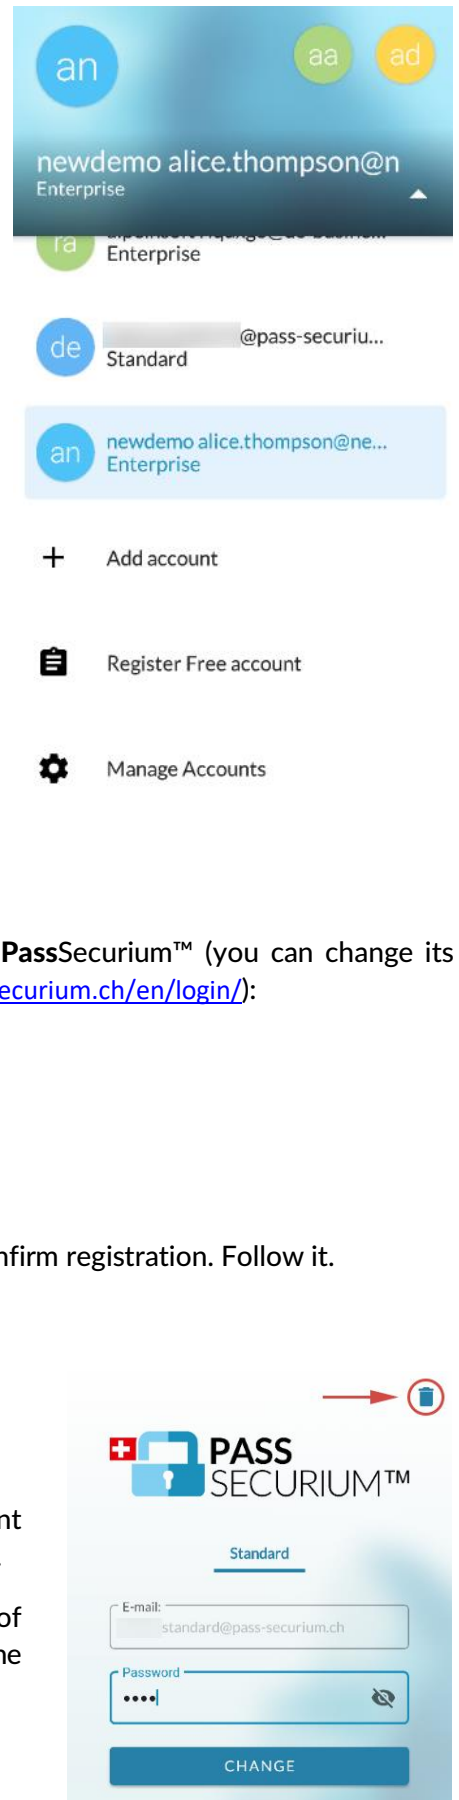

If you need a new free account you can easily register it via **PassSecurium™** (you can change its subscription to paid later in Customer Portal: <https://portal.pass-securium.ch/en/login/>):

- Tap <Register Free account>.
- Enter email for account creating.
- Enter and confirm password.
- Tap <Register>.
- To the specified email will come a letter with a link to confirm registration. Follow it.
- Now you have another one account.
